NSS CELL ACTIVITY

Activity Name	Eye Check-up Camp
NSS Coordinator	Prof. D.B.Khadse
NSS Co-coordinator	Prof. R. Bhoyar , Prof.T.R.Patil
Date	16-03-2023
Time	11.30 pm to 5.00 pm
Activity Organized by	NSS CELL, RTM Nagpur University
Objective	To spread awareness on eye disorders, early detection of ailments, and to detect refractive errors
Summary of NSS Activity	<p>Eyes play a vital role in our day to day lives and perhaps the most precious gift we have. It can become embarrassing if we fail to recognize a person due to lack of good vision. A regular eye test is the best way to protect our eyesight and an easy precaution to take as many sight- threatening diseases can be cured or slowed if caught early enough. The camp was organized in collaboration with Contacare Eye Hospital, Dhantoli Nagpur. Camp was inaugurated at the hand of Dr. N.K.Choudhari, Principal, Dr.(Mrs).A.R.Choudhary, Dean Academic and Eye Specialist Mr. Pranay Chimankar. On this occasion Head of all the department and Senior faculty member were present. Camp was organized by Prof. D.B. Khadse , NSS Programme officer. Mr. R.Bhoyar , Mr. T.R.Patil , Mr.P.Arekewar NSS Cell faculty members monitored this activity. NSS Student members Ms.Dimple Charde, Mr.Anurag Golhar, Ms.Shreya Thaware and Mr. Harshal Tayde and other NSS Student Volunteers actively participated in the camp and also work hard for success of camp .</p> <p>The Principal of Institute, Dr.N.K Choudhari has appreciated efforts of NSS Cell and addressed the all students of college regarding importance of good eye vision in daily life and encourages the students for taking interest in social awareness program.</p>

Academic session 2022-23

Report on Social Activity "Vigyan Sanskar Shibir"

1. Event Title : Social activity "**Vigyan Sanskar Shibir**"
2. Event Date and time : 23rd April – 29th April 2023
3. Event venue : 1. Adarsh Vidhya Mandir, Gandhibag, Nagpur
2. Vimal Devi Laxminaray Soni High School, Hirawi Nagar, Nagpur
4. Event resource person : VIGYAN BHARATI Vidarbha Pradesh Mandal, Nagpur
5. Name of Event Coordinator : Dr. S.P.Daf, III Cell Incharge, Asst. Prof. Mechanical Engg. Dept.
6. Number of students Coordinator: 10 Students
7. Objective :To promote scientific curiosity, foster a love for learning, and develop critical thinking skills among participants. The activity aims to create a platform for students to explore various scientific concepts and principles through hands-on experiments, interactive sessions, and engaging activities.
8. Outcome : Participants will acquire a deeper understanding of scientific concepts, principles, and phenomena through interactive workshops and practical experiments. They will broaden their knowledge base and develop a solid foundation in various scientific disciplines. "Vigyan Sanskar Shibir" aims to nurture a scientific temperament among 8th and 9th class students, empowering them with knowledge, skills, and a passion for scientific inquiry.

Report of "Blood Donation Camp" in Collaboration with NSS

1. Event Title : Social Activity "Blood Donation Camp"
2. Event Date : 10/10/2022
3. Event venue : Sport Room , PBCOE Campus Nagpur
4. Event Guests : Dr. Waghmare, Government Hospital, Nagpur
5. Name of Event Coordinator : Dr. A. D. Anjekar
6. Number of students : 22
7. Objective : To motivate people to donate blood and to raise awareness of the need for safe blood and blood products.
8. Outcome : Everyone should donate blood as it replicates human values and the social responsibility towards society. "Blood can't be manufactured as the other things can, it can only be given to save the lives. Today accidents have increased and blood is very much in need for each and every hospital. Many students voluntarily came up to donate the blood.

Report of "Traffic Rule Awareness Program" in Collaboration with NSS

1. Event Title : Social activity on "Traffic Rule Awareness Program"
2. Event Date : 05/05/2023
3. Event venue : Shitla Mata Mandir Square, Nagpur
4. Name of Event Coordinator : Dr. A. D. Anjekar
5. Objective : To decrease and completely remove out the road accidents, road accident death, and injury cases by applying the road safety measures. To encourage all the travelers to follow the traffic rules and wear helmets and seat belts while driving
6. Outcome : This program aimed to find out the awareness on traffic rules and safety measures among travelers. Students are able to know that police department alone cannot bring down incident of road mishaps and collective efforts are required from the public and private organizations apart from the police to promote and implement safety rules effectively in the city

Department of Mechanical Engineering in Collaboration with NSS

Academic session 2022-23

Report of "Tree Plantation Drive"

1. Event Title : Social activity on "Tree Plantation Drive"
2. Event Date : 11/01/2023
3. Event venue : Temasana Dhighori Phata Nagpur
4. Name of Event Coordinator : Dr. S. P. Daf
5. Objective : To promote environmental conservation and sustainability by planting a significant number of trees in an area. The drive aims to enhance the ecological balance, combat deforestation, improve air quality, and raise awareness about the importance of trees in mitigating climate change.
6. Outcome : The drive will result in the planting of a substantial number of trees, contributing to the expansion of green spaces in the targeted area. The newly planted trees will absorb carbon dioxide, release oxygen, and act as a natural air purifier, leading to improved air quality and a healthier environment. The planted trees will provide a habitat for various species of birds, insects, and other wildlife, enhancing biodiversity in the region. The drive will foster a sense of community involvement and environmental responsibility, encouraging more people to participate in conservation efforts. Participants and the local community will gain awareness about the importance of trees in maintaining ecological balance and the role they play in mitigating climate change. As the trees grow and mature, the drive will have a lasting impact on the environment, providing benefits for future generations. The Tree Plantation Drive will serve as an example of sustainable practices that can be replicated in other areas, inspiring similar initiatives in the future. The "Tree Plantation Drive" aims to make a positive and lasting impact on the environment and inspire individuals and communities to take action in preserving and restoring natural habitats.

Report of Social Extension Activity in Collaboration with NSS cell

- Event Title : Distribution of Bedsheets at Old Age Home
1. Event Date : 10th October 2022 (Monday)
 2. Event conduction duration : 11.00 am To 12 noon
 3. Event venue : Shri Maheshwar Wanprasth Aashram, Bahadura, Nagpur.
 4. Report :

Department of CSE in collaboration with NSS cell has conducted social extension activity on 10th October 2022 with faculties and students. We have visited "Shri Maheshwar Wanprasth Aashram, Bahadura, Dighori" Nagpur at 11.00 am. It's a old age home. We have interacted with the inmates of the home and communicated our purpose of visiting there. We have also donated 36 Bed sheets to the Aaashram for the use of inmates. All the faculties, volunteers of CSE and NSS cell I/C Mr D B Khadse took part actively.

Social Extension Activity in Collaboration with NSS Cell

Activity Name	Seminar on "Cyber Security"
Faculty Coordinator	Mr. D. B. Khadse
Date	22-08-2022
Time	2.30 pm to 4.30 pm
Activity Organized by	Computer Science and Engineering Department in collaboration with NSS cell
Summary of Activity	<p>Department of CSE has organized a social extension activity in collaboration with NSS cell. We have conducted seminar on "Cyber Security", for Bhagwati Girls High School students. Student from third year given the presentation on Cyber security, ethical hacking, and other computer security. Student coordinator Harshal Sawatkar and Nayan Mungole give the Presentation on cyber security. Student gives them basic tips about the security and how to create strong password, how to secure the laptop and mobile etc.</p> <p>Head of department and Principal of college appreciate the effort taken by student and encourage them to participate in more such kind activity.</p>

Academic session 2022-23

Report on "Project exhibition in Indian Science Congress 2023" under the NSS

1. Event Title : Project exhibition in Indian Science Congress 2023
2. Event Date and time : January 3rd to January 7th 2023
3. Event venue : Rashtrasant Tukadoji Maharaj Nagpur University, Nagpur
4. Event resource person : NA
5. Name of Event Coordinator : Dr. P. M. Palkar T&P, Coordinator, PBCOE, Nagpur
Dr. S. P. Daf, Asst. Prof. Mech. Engg. Dept. PBCOE, Nagpur
Mr. D. B. Khadase, NSS Coordinator, PBCOE, Nagpur
6. Beneficiary : Society (Specially Farmer)
7. Objective : One of the primary objective of our students' projects was to actively engage with farmers during the exhibition. Visitors, especially farmers, found these projects to be highly relevant to their needs and challenges. Many farmers expressed their appreciation for the practicality and potential impact of these solutions on their farming practices. This engagement led to meaningful discussions and the sharing of valuable insights between our students and the farming community.
8. Outcome : The enthusiastic response from visitors, especially farmers, to our projects in smart agricultural machinery indicates a strong demand for innovative solutions in agriculture. This event has not only showcased the potential of science and technology but also served as a catalyst for social extension activities. The interaction between academia and the farming community during the event has paved the way for future collaborations.

Area of Work	Solar		

Abstract : In this project an approach has been made to modify solar water heater with modified heat exchanger. In view of energy crisis, the application of solar energy in the form of solar water heater is most useful for domestic commercial and industrial purpose but it was found that due to improper design of panel, the efficiency is reduced and there is a lot of wastage of space during installation. The main objective of this project is an attempt to change the design of solar water heater with the help of modified heat exchanger.

In order to make the best use of the available solar energy, the design of the collector should be appropriate as it is the heart of the solar energy application. Parallelogram shape copper collector coated with black paint has been constituted as the solar absorber on the collector. The problem of scale formation in the solar collector tube in conventional solar water heating system will result in reduced efficiency. To overcome this drawback of conventional water heater we have developed an idea in which we have incorporated modified heat exchanger in between the solar collector and the water tank. The liquid flowing through collector tube is distilled water having desired properties. Solar water heating system uses heat exchanger to transfer solar energy absorbed in the solar collector to the liquid stored in tank for use. The heat exchanger can be made up of steel, copper, bronze, stainless steel, aluminum or cast iron. Solar heating system usually uses copper because it has a good thermal conductivity and has a greater resistance towards corrosion.

Outcome: The efficiency of solar water heater is increase by 47.53%

Area of Work	Solar and agriculture		
Abstract: The solar drying system utilizes solar energy to heat up air and to dry any food substance loaded, which is beneficial in reducing wastage of agricultural product and helps in preservation of agricultural product. Based on the limitations of the natural sun drying e.g. exposure to direct sunlight, liability to pests and rodents lack of proper monitoring, and the escalated cost of the mechanical dryer, a solar is therefore developed to cater for this limitation. This project presents the design, construction and performance of a mixed mode solar dryer for food preservation. In the dryer, the heated air from a separate solar collector is passed through a grain bed, and at the same time, the drying cabinet absorbs solar energy directly through the transparent walls and roof. The results obtained during the test period revealed that the temperatures inside the dryer and solar collector were much higher than the ambient temperature during most hours of the day-light. The temperature rise inside the drying cabinet was up to 74% for about three hours immediately after 12.00h (noon). We can dry tomatoes and then grind to use the powder made from these as the taste additives for various products like sauces, chips, wafers etc. Many beverages' industries like Haldiram, Balaji, Parley, Kissan etc. uses the powder made from tomato to make their beverages.			
Outcome: The temperature rise inside the drying cabinet was up to 74% .

Area of Work	Agriculture		

Abstract : agriculture plays a vital role in the Indian economy. Indian agriculture is at crossroads and one of the major challenges is to reverse deceleration in agricultural growth. The grains on handling after harvest contain various proportions of material other than grains (MOG) such as stone, pod, stem and dirt. Separation of the MOG is essential to upgrade the quality of food material. The development of a soybean grain separation machine presents a review of former needs/approaches. The Available evidence suggests that the grain separation machine in the rural areas by the traditional use of hand beating/ separation of the grains. This method reduces for time wasting, energy sapping and more labor. The objective of this work is to decrease the time required for dust separation thus it will be supportive for agriculture field. In agricultural field the grain separator machine is required for farmers to decrease the labor cost and also the time. And easily accessible in terms of cost and availability at regional level and also the materials used for the machine construction should be light in weight.

Outcome: This machine decreases the time required for separation of dust, contaminations, impurities and hauling from the heap of the harvested grains and also minimize labor cost, time and power.
